IN-LINE FILTERS

SCREW COMPRESSORS

From 3 HP to 220 Hp (Fixed/Variable speed version)

REFRIGERATION DRYERS From 550 l/min to 70,000 l/min

Ceccato, an Italian based company has been producing Air Compressors for more than 60 years. The product evolved from Reciprocating compressors to Rotary Screw Compressors. Their presence in South Africa can be traced back to the late 80's, early 90's, where Compair S.A distributed their products in the country. They maintained a diminished presence in the country up until 2005 when Ceccato S.A came into being. Also during the late 90's their were major changes in the company structures in Europe culminating in their acquisition by Atlas Copco, one of the biggest compressor manufacturers in the world.

Ceccato Compressors association with Atlas Copco offered huge rewards for the company as they enjoyed the benefit of the advanced technology of one the worlds largest compressor manufacturing companies. Subsequently their were major changes to the Ceccato product line, all of which enhanced the companies presence in the Rotary Screw market. The move to increase their presence in sub Saharan Africa, using South Africa as a base, was a natural result of the metamorphosis the company had experienced in Europe. Setting up Ceccato S.A showed their commitment to the South African market.

CIS/AIRCOM inclusion into the Ceccato family was borne out of our need to be able to offer a world class product at a competitive price to the Kwazulu Natal market. We are confident that we have found a winning formula in the Ceccato product.

As important as it is for you to acquire a reliable, efficient product as a long term solution for your needs, it is vitally important that the aftermarket requirements of such an acquisition is satisfied. To this end CIS/AIRCOM is favourably placed to render this service to your company.

Our company is based in Phoenix Industrial Park. We have maintained a presence in the Kwazulu Natal compressor market for more than 15 years. We boast staff with a combined experience of more than 100 years in the Compressed Air Industry, all of whom share a passion for the industry. We offer a personalised service to all of our clients with complete transparency in all of our dealings. Our constant striving for service excellence combined with a passionate driven team assures you of a quality service that you seek for your company compressor plant.
